About Us

United Action Women and Girls (UAWG) is a non-profit organization founded in 2016 by activist **Fatuma Musa Afrah**. UAWG e.V. empowers migrant women and refugee women & girls in Brandenburg and beyond.

Our Mission

At UAWG e.V., we believe in the strength and potential of all women. We're a collaborative community dedicated to:

Providing resources, guidance and safer spaces.

Empowering women and girls to learn new skills, access education and work, enjoy better health and self-care and achieve their goals. Helping create a welcoming society.

How we began

After studying social work in Kenya and working with aid organizations, **Fatuma** was inspired to support refugee women and girls facing isolation in Brandenburg. Having personally encountered the challenges that newcomers experience, she founded UAWG e.V. to facilitate self-directed, empowering community programs for migrant and refugee women.
